1.0 Introduction	1	3.3.1 Roadway	14	5.4.3 Analysis Model Results	41
1.1 Study Description	1	3.3.2 Bridges	14	5.5 Bike/Walk Options	41
1.2 Corridor Description	2	3.3.3 Charleston International Airport Flight Paths	14	5.6 Environmental Review	42
1.2.1 Major Employers	2	3.4 Adjacent Utilities	15	5.7 Measures of Effectiveness – TDM Strategies	42
1.2.2 Economic Development	2	3.5 Environmental Issues	15	6.0 Modal Strategies	44
1.3 Previous Studies	3	3.5.1 Natural Environment	15	6.1 Transit Strategies	44
1.3.1 CHATS Long Range Transportation Plan	4	3.5.2 Human Environment	16	6.1.1 Existing Services	44
1.3.2 Mark Clark Expressway Draft Environmental Impact Statement	4	4.0 Existing Corridor Travel Data	17	6.1.2 Ongoing Studies & Planning Efforts	45
1.4 Funding	4	4.1 Existing Socioeconomic Data	17	6.1.3 Employer Surveys	46
1.5 Improvement Strategy Review	4	4.2 Existing Traffic Conditions	18	6.1.4 Short-Term Transit Improvement Strategies	47
1.6 Study Team	5	4.2.1 Historical Traffic Trends	19	6.1.5 Long-Term Transit Strategies	51
2.0 Public Involvement	6	4.2.2 Traffic Growth Rates	21	6.2 Freight Mobility Strategies	53
2.1 Public Information Plan	6	4.2.3 Existing Traffic Information	23	6.2.1 Existing Freight Volumes	54
2.2 Steering Committee	6	4.2.4 Existing Origin-Destination Information	23	6.2.2 Port-Related Freight Traffic	54
2.2.1 Steering Committee Meetings	6	4.3 Site Visit/Observed Traffic Conditions	26	6.2.3 Rail-based Freight Movements	56
2.3 Stakeholder Committee	7	4.4 Travel Demand Management	27	6.2.4 Commercial-based Freight Movements	57
2.3.1 Stakeholder Committee Meetings	8	4.5 Alternate Travel Modes	28	6.2.5 Potential Freight Improvement Strategies	57
2.4 Other Public Engagement	8	4.5.1 Existing CARTA Ridership	28	6.3 Environmental Review	61
2.4.1 Website	8	4.5.2 Existing Freight Measures	29	6.4 Measures of Effectiveness – Modal Strategies	61
2.4.2 Public Information Meetings	8	4.6 Crash Data Review	29	7.0 Traffic Operations Strategies	63
2.4.3 Local Media	8	4.7 INRIX Travel Speed Information	32	7.1 Geometric Improvements	63
3.0 Existing Corridor Infrastructure	9	4.8 VISSIM Corridor Model Development	34	7.1.1 I-526 & US 17/Sam Rittenberg Boulevard Interchange	63
3.1 Transportation Facilities	9	4.8.1 Origin-Destination Matrix Development	34	7.1.2 I-526 & Paul Cantrell Boulevard Interchange	63
3.1.1 Roadway	9	4.8.2 VISSIM Summary	36	7.1.3 I-526 & Leeds Avenue Interchange	64
3.1.2 Existing Interchanges	10	5.0 Travel Demand Management Strategies	37	7.1.4 I-526 & Dorchester Road/Paramount Drive Interchange	64
3.1.3 Bridges	12	5.1 TDM Strategies	37	7.1.5 I-526 & International Boulevard Interchange	64
3.2 Useful Remaining Life	14	5.2 Employer Survey	39	7.1.6 I-26 & I-526 Interchange	65
3.3 Design Criteria	14	5.3 Case Study Review	39	7.1.7 I-526 & Rivers Avenue Interchange	65
		5.4 Analysis Models	40	7.2 Pavement Marking Improvements	65
		5.4.1 COMMUTER	40		
		5.4.2 TRIMMS	41		

7.2.1 I-526 at the Ashley River Bridges (OPS 29).....	65	8.2.2 Braided Ramps	83	9.7 Alternate 6.....	104
7.2.2 I-526 from Rivers Avenue to the Don Holt Bridge (OPS 30).....	66	8.2.3 Other Mainline Improvements	84	9.8 Alternate 7.....	105
7.2.3 Interstate Route Shields (OPS 31).....	66	8.3 Interchanges.....	84	9.9 I-26 & I-526 Interchange Improvements Summary	106
7.2.4 Acceleration Lane Markings (OPS 32).....	66	8.3.1 I-526 & US 17/Sam Rittenberg Boulevard	84	9.10 VISSIM Build Analyses.....	106
7.3 Signing Improvements	66	8.3.2 I-526 & Paul Cantrell Boulevard	86	9.11 Project Phasing	106
7.4 Intelligent Transportation Systems Improvements.....	70	8.3.3 Paul Cantrell Boulevard & Magwood Drive.....	89	9.12 Hurricane Evacuation Review.....	107
7.4.1 Signal Retiming	70	8.3.4 I-526 & Leeds Avenue.....	90	9.13 Environmental Review.....	107
7.4.2 Traffic Cameras (OPS 46)	71	8.3.5 I-526 & Dorchester Road/Paramount Drive	91	9.13.1 Segment 6 – I-26 & I-526 Interchange	108
7.4.3 Incident Management (OPS 47)	71	8.3.6 I-526 & Montague Avenue/International Boulevard ...	92	9.13.2 Segment 7 – I-26 East of I-526	108
7.4.4 Accident Investigation Areas (OPS 48).....	71	8.3.7 I-26 & I-526	93	9.13.3 Segment 8 – I-26 West of I-526	108
7.4.5 Active Traffic Management (OPS 49)	71	8.3.8 I-526 & Rivers Avenue	93	9.13.4 Segment 9 – I-26 Between Remount Road and West Aviation Avenue.....	108
7.5 Managed Lanes (OPS 50)	74	8.4 Alternate Routes.....	95	10.0 Recommendations.....	109
7.5.1 Project Definition	75	8.4.1 Mlchaux Parkway Connector.....	95	10.1 VISSIM Build Analyses.....	109
7.5.2 Traffic Forecasts and Methodology.....	75	8.4.2 South Aviation Avenue Extension	96	10.1.1 Modeling Approach	109
7.5.3 No Build Results.....	76	8.5 VISSIM Build Analyses	97	10.1.2 Methodology Assumptions	109
7.5.4 HOV Lanes Results.....	77	8.6 Environmental Review	97	10.1.3 Future-Year 2035 Build Conditions	109
7.5.5 HOT Lanes Results	77	8.6.1 Environmental Documentation and Permitting.....	97	10.1.4 VISSIM Build Analysis Summary	123
7.5.6 Operations and Maintenance Costs.....	78	8.6.2 Segment 1 – Paul Cantrell Boulevard.....	98	10.2 Traffic Volume Reduction Potential.....	123
7.5.7 HOT Lane Financial Feasibility.....	78	8.6.3 Segment 2 – Leeds Avenue Interchange	98	10.3 Suitability Analysis.....	124
7.6 Environmental Review	79	8.6.4 Segment 3 – Paramount/Dorchester Interchange.....	98	10.4 Cost/Benefit Analysis.....	124
7.6.1 US 17/Sam Rittenberg Boulevard Paul Cantrell Boulevard.....	79	8.6.5 Segment 4 – Montague Avenue Interchange	98	10.5 Construction Contract Groups	124
7.6.2 Leeds Avenue	79	8.6.6 Segment 5 – International Boulevard Interchange.....	98		
7.6.3 Dorchester Road/Paramount Drive.....	80	8.6.7 Segment 10 – Rivers Avenue Interchange	99		
7.6.4 International Boulevard Montague Avenue	80	8.6.8 Segment 11 – I-526 East of Rivers Avenue.....	99		
7.6.5 I-26 Rivers Avenue	80	8.7 Summary – Capacity Improvement Strategies	99		
7.7 Summary – Traffic Operations Strategies	80	9.0 I-26 & I-526 Interchange Improvements	101		
8.0 Capacity Improvement Strategies.....	83	9.1 Strategies	101		
8.1 Deficiency Overview	83	9.2 Alternate 1	101		
8.2 I-526 Mainline Improvements.....	83	9.3 Alternate 2	102		
8.2.1 Widening	83	9.4 Alternate 3	103		
		9.5 Alternate 4	103		
		9.6 Alternate 5	104		

List of Appendices

Appendix A – Capacity Improvement Concept Plans

Appendix B – I-26 & I-526 Interchange Concept Plans

List of Exhibits

Exhibit 1-1: Project Study Area	1	Exhibit 4-22: Existing (2011) AM Peak Hour I-526 Westbound Travel Time Graph .	35	Exhibit 8-5: Paul Cantrell Boulevard Alternate 1 – DDI	87
Exhibit 2-1: Two-day Workshop Group	6	Exhibit 4-23: Existing (2011) PM Peak Hour I-526 Westbound Travel Time Graph .	35	Exhibit 8-6: Paul Cantrell Boulevard Alternate 2 – Modified SPUI	87
Exhibit 2-2: Project Website Homepage.....	8	Exhibit 4-24: Existing (2011) PM Peak Hour I-526 Eastbound Travel Time Graph ..	35	Exhibit 8-7: Paul Cantrell Boulevard Alternate 3 – Two-Lane Loop	88
Exhibit 3-1: Typical I-526 Cross-Section, west of Rivers Avenue.....	9	Exhibit 5-1: Potential TDM Impacts on Hourly Traffic Volumes	37	Exhibit 8-8: Paul Cantrell Boulevard Alternate 4 – Triple Left-Turn Lanes	88
Exhibit 3-2: I-526 Interchanges with I-26 (left) and Rivers Avenue (right).....	10	Exhibit 6-1: CARTA Express Routes	44	Exhibit 8-9: Paul Cantrell Boulevard & Magwood Drive Alternate 1 – Tight Urban Diamond.....	89
Exhibit 3-3: I-526 Interchanges with International Boulevard (left) and Montague Avenue (right).....	11	Exhibit 6-2: Current CARTA Routes	45	Exhibit 8-10: Leeds Avenue Alternate 1 – SPUI	90
Exhibit 3-4: I-526 Interchange with Dorchester Road/Paramount Drive	11	Exhibit 6-3: Current TriCounty Link Routes	45	Exhibit 8-11: Leeds Avenue Alternate 2 – DDI.....	90
Exhibit 3-5: I-526 Interchanges with Leeds Avenue (left) and Paul Cantrell Boulevard (right).....	11	Exhibit 6-4: CARTA Strategic Plan Update.....	46	Exhibit 8-12: Leeds Avenue Alternate 3 – Roundabout “Bow Tie” Interchange	91
Exhibit 3-6: I-526 Interchange with Sam Rittenberg Boulevard and US 17/Savannah Highway.....	12	Exhibit 6-5: Rendering of the Proposed CARTA Intermodal Center	46	Exhibit 8-13: International Boulevard Alternate 1 – DDI.....	92
Exhibit 3-7: Typical I-526 Bridge Section	12	Exhibit 6-6: Conceptual Transit Route from West Ashley to North Charleston	48	Exhibit 8-14: Rivers Avenue Alternate 1 – DDI	93
Exhibit 3-8: Charleston International Airport Imaginary Surfaces	15	Exhibit 6-7: Connectivity Improvement Opportunities	49	Exhibit 8-15: Rivers Avenue Alternate 2 – Partial Cloverleaf	94
Exhibit 4-1: I-526 at Ashley River – Average Hourly Distribution.....	19	Exhibit 6-8: CARTA Bus Stop Before/After Shelter Installation	50	Exhibit 8-16: Rivers Avenue Alternate 3 – Partial Interchange	94
Exhibit 4-2: I-526 at Cooper River – Average Hourly Distribution.....	19	Exhibit 6-9: Conceptual Shuttle Service between Charleston International Airport and Tanger Outlet Mall	51	Exhibit 8-17: Rivers Avenue Alternate 4 – Maintain Existing Configuration	95
Exhibit 4-3: I-526 at Ashley River – Average Daily Distribution	20	Exhibit 6-10: Proposed Commuter Rail Corridors.....	52	Exhibit 8-18: Michaux Parkway Connector	96
Exhibit 4-4: I-526 at Cooper River – Average Daily Distribution	20	Exhibit 6-11: Conceptual Fixed Guideway Improvements – US 52 Corridor	53	Exhibit 8-19: South Aviation Avenue Extension	96
Exhibit 4-5: I-526 at Ashley River – Average Weekly Distribution	20	Exhibit 6-12: I-526 Heavy Vehicle Percentages	54	Exhibit 9-1: I-26 & I-526 Alternate 1	102
Exhibit 4-6: I-526 at Cooper River – Average Weekly Distribution	20	Exhibit 6-13: Existing State Ports Authority Terminals.....	55	Exhibit 9-2: I-26 & I-526 Alternate 2	102
Exhibit 4-7: I-526 at Ashley River – Average Monthly Distribution	21	Exhibit 6-14: Container Terminals Equipment Interchange Receipts Summary	56	Exhibit 9-3: I-26 & I-526 Alternate 3	103
Exhibit 4-8: I-526 at Cooper River – Average Monthly Distribution	21	Exhibit 6-15: Potential Intermodal Facility – MacAlloy-Cooper Yard.....	57	Exhibit 9-4: I-26 & I-526 Alternate 4	103
Exhibit 4-9: Interstate Growth Rates	22	Exhibit 6-16: Potential Intermodal Facility – Charleston Naval Complex	57	Exhibit 9-5: I-26 & I-526 Alternate 5	104
Exhibit 4-10: Arterial Growth Rates	22	Exhibit 6-17: Near-Terminal Parking Flyer.....	59	Exhibit 9-6: I-26 & I-526 Alternate 6	105
Exhibit 4-11: Origin-Destination Percentages from I-26 West	24	Exhibit 6-18: National Highway System Map.....	60	Exhibit 9-7: I-26 & I-526 Alternate 7	105
Exhibit 4-12: Origin-Destination Percentages from I-26 East.....	25	Exhibit 7-1: I-526 Active Traffic Management Plan.....	73	Exhibit 10-1: 2035 Build AM Peak Hour I-526 Eastbound Travel Time Graph.....	112
Exhibit 4-13: Origin-Destination Percentages from US 17/I-526 West	25	Exhibit 7-2: Potential LCS Indication Progressions.....	74	Exhibit 10-2: 2035 Build AM Peak Hour I-526 Westbound Travel Time Graph.....	112
Exhibit 4-14: Origin-Destination Percentages from I-526 East.....	26	Exhibit 7-3: Managed Lanes Project Extents	75	Exhibit 10-3: 2035 Build AM Peak Hour Eastbound Speed Graph	113
Exhibit 4-15: I-526 Crash Data (North).....	30	Exhibit 7-4: I-526 Eastbound AM Peak Hour Traffic, 2010, 2015, 2035	76	Exhibit 10-4: 2035 Build AM Peak Hour Westbound Speed Graph	113
Exhibit 4-16: I-526 Crash Data (South).....	31	Exhibit 7-5: I-526 Westbound PM Peak Hour Traffic, 2010, 2015, 2035	76	Exhibit 10-5: 2035 Build PM Peak Hour I-526 Eastbound Travel Time Graph.....	115
Exhibit 4-17: 2009 I-526 Eastbound & Westbound Hourly Speeds	32	Exhibit 7-6: Annual HOT and Toll Transactions and Revenue (nominal \$'s)	78	Exhibit 10-6: 2035 Build PM Peak Hour I-526 Westbound Travel Time Graph.....	115
Exhibit 4-18: 2010 I-526 Eastbound & Westbound Hourly Speeds	33	Exhibit 7-7: Build HOT Lanes Scenario, Annual Tolling Operations & Maintenance Costs, 2012\$'s	78	Exhibit 10-7: 2035 Build PM Peak Hour Eastbound Speed Graph	116
Exhibit 4-19: 2011 I-526 Eastbound & Westbound Hourly Speeds	33	Exhibit 7-8: Annual Toll Revenue and Operations & Maintenance Costs, Nominal \$'s	79	Exhibit 10-8: 2035 Build PM Peak Hour Westbound Speed Graph	116
Exhibit 4-20: 2012 I-526 Eastbound & Westbound Hourly Speeds	34	Exhibit 8-1: US 17 Alternate 1 – Modified SPUI	84		
Exhibit 4-21: Existing (2011) AM Peak Hour I-526 Eastbound Travel Time Graph ..	35	Exhibit 8-2: US 17 Alternate 2 – Full SPUI	85		
		Exhibit 8-3: US 17 Alternate 3 – Partial Cloverleaf	85		
		Exhibit 8-4: US 17 Alternate 4 – Two-Way Bridge	86
